Upon Arrival

Please refer to the back of your guest room door to locate fire exits and staircases. Please find alarm pull stations and fire extinguishers on your floor. Please find the "OFF" switch on your air conditioner. In case of fire, turning the air conditioner off will prevent smoke from being drawn into your room.

In Case of Fire

- Stay calm.
- Pull the nearest fire alarm.
- If possible, close doors around the fire area.
- Phone the operator.
- Exit from the building (if at all possible).
- Take your room key with you.

Smoke

If your room is filled with smoke, fold a wet towel into a triangle and tie it over your nose and mouth. Get on your hands and knees (or stomach) and crawl to the door. Feel the knob; if hot, do not open. If cool, open slowly. Take your room key. If the hallway is filled with smoke, stay next to the wall and count the doors as you crawl to the exit staircase. Walk down the exit staircase. If the staircase begins to fill with smoke, return to your room.

If You Cannot Leave Your Room

- Dial "0." If unavailable, call the Fire Department "911."
- Shut off air conditioner.
- Wedge a wet cloth under the door and around the doors and vents.
- Remove drapes from windows.
- Check to see if there is smoke outside the window; if there is no smoke outside and the window may be opened, hang a sheet or light colored material outside. This will signal your location, letting firefighters know that the room is still occupied. Keep part of the sheet inside the window, wet with water.
- Fill the bathtub or sink with cold water for firefighting. Use ice bucket or other container to keep water available to quickly moisten the wet cloths that are keeping the smoke out.
- Do not break the window. Do not jump.
- Stay low and continue firefighting until help arrives.

CARBON MONOXIDE WARNING

Carbon Monoxide is a colorless, odorless, poisonous gas, and exposure can be fatal. Your room is equipped with a carbon monoxide detector.

Symptoms of carbon monoxide exposure may include:

Headache	Fatigue	Weakness
Nausea	Shortness of Breath	Confusion
Vomiting	Loss of Muscle Coordination	Dizziness
Blurred Vision	Loss of Consciousness'	Collapse

What to do if a carbon monoxide alarm is sounding or if you experience any symptoms of carbon monoxide exposure:

- Never ignore a carbon monoxide alarm that is sounding
- Immediately move outside to fresh air
- Advise the hotel front desk
- Call 911, emergency services, or the fire department
- Do a head count to check that all people in your party are accounted for
- Do not re-enter the premises until the emergency services responders have given you permission'
